**DECISION**  
Case #: MPA - 174008

---

**PRELIMINARY RECITALS**

On April 27, 2016, the above petitioner filed a hearing request under Wis. Stat. § 49.45(5), and Wis. Admin. Code § HA 3.03(1), to challenge a decision by the Division of Health Care Access and Accountability regarding Medical Assistance. The hearing was held on June 3, 2016, by telephone from Madison, Wisconsin.

The issue for determination is whether the respondent correctly modified petitioner's request for personal care worker (PCW) hours.

There appeared at that time the following persons:

**FINDINGS OF FACT**

1. Petitioner is an 84 year old resident of Milwaukee County.

2. Petitioner diagnoses include Other Chorea, Mild Cognitive Impairment, as well as COPD, osteoporosis, depression and gout. She requires assistance with activities of daily living (ADLs), and until the current request he was authorized for 10.5 hours per week PCW services.
3. On February 16, 2016, Knapps Development, Inc., requested authorization for 11.75 PCW service hours per week, and 24 hours as-needed annual PCW hours, for a one-year period effective February 8, 2016, PA no. [REDACTED]. By a letter dated March 14, 2016, the DHCAA granted 4.5 hours per week (additional "as-needed" time was granted as requested).
4. The DHCAA granted daily time for bathing, dressing lower body, and services incidental to tasks. No time was given for dressing upper body, grooming, eating assistance, mobility toileting, transfers or medical assistance.

### **DISCUSSION**

Personal care services are "medically oriented activities related to assisting a recipient with activities of daily living necessary to maintain the recipient in his or her place of residence in the community." Wis. Admin. Code, §DHS 107.112(1)(a). Covered services include the following:

1. Assistance with bathing;
2. Assistance with getting in and out of bed;
3. Teeth, mouth, denture and hair care;
4. Assistance with mobility and ambulation including use of walker, cane or crutches;
5. Changing the recipient's bed and laundering the bed linens and the recipient's personal clothing;
6. Skin care excluding wound care;
7. Care of eyeglasses and hearing aids;
8. Assistance with dressing and undressing;
9. Toileting, including use and care of bedpan, urinal, commode or toilet;
10. Light cleaning in essential areas of the home used during personal care service activities;
11. Meal preparation, food purchasing and meal serving;
12. Simple transfers including bed to chair or wheelchair and reverse; and
13. Accompanying the recipient to obtain medical diagnosis and treatment.

Wis. Admin. Code, §DHS 107.112(b).

Personal care workers can spend no more than one-third of their time performing housekeeping activities. Like all medical assistance services, PCW services must be medically necessary and cost effective. Wis. Admin. Code, §DHS 107.02(3)(e)1 and 3. At hearing on the issue of modification of a PA request, it is the burden of petitioner or the provider to establish the need and appropriateness of the requested services. Petitioner has done neither based on this record.

The DHCAA approved 4.5 hours of PCW services each week for the petitioner. To reach this figure the DHCAA initially used the Personal Care Screening Tool, a computer program it believes will allow it to consistently determine the number of hours required by each recipient. The screening tool allots a specific amount of time in each area the recipient requires help, which the DHCAA's reviewer can then adjust to account for variables missing from the screening tool's calculations. The DHCAA then adjusted the tool's results based upon Department maximum time allowances and consideration of petitioner's medical records.

Petitioner's representative testified that petitioner now needs time for dressing her upper body and for incontinence. Petitioner's representative did not, however, provide specific times necessary for providing the additional PCW services, but instead testified that more time was needed than allotted because of petitioner's unique circumstances and needs. Nothing was quantified. Without a better way to quantify the time for services, however, I find it difficult to add more time.

Petitioner should be aware that if she and her provider can show a medical need for more time, it can always request an amendment for additional time with evidence to show the need for the additional time. However, based upon the evidence before me I cannot conclude that the reduction to 4.5 hours per week was wrong.

### **CONCLUSIONS OF LAW**

The DHCAA's modification of the request for PCW hours was appropriate based upon petitioner's medical needs and the Department's policies for PCW approval.

**THEREFORE, it is** **ORDERED**

That the petition for review herein be and the same is hereby dismissed.

### **REQUEST FOR A REHEARING**

You may request a rehearing if you think this decision is based on a serious mistake in the facts or the law or if you have found new evidence that would change the decision. Your request must be **received within 20 days after the date of this decision**. Late requests cannot be granted.
